Projects

Web Application and Development, Aurora University, Aurora IL

Name of Project: Battleship

Link: Battleship

- The centerpiece of the website is an engaging Battleship game implemented using HTML, CSS, and JavaScript.
- The website is designed with a responsive layout, ensuring that it adapts seamlessly to various screen sizes and devices, from desktop computers to mobile phones. This responsive design showcases my proficiency in creating user-friendly interfaces.

Skills

- JavaScript/HTML/CSS
- Java
- Python
- JSON

Involvement

Aurora University Computer Science Club Member   September 2022-Present

Experience

Dairy Queen, Montgomery, IL   May 2019-Present

Manager

- Supervise and guide a team of seven employees during each night shift, fostering a collaborative and productive work environment.
- Responsible for daily cash management and accounting
- Assign cleaning tasks and responsibilities, ensuring that the entire store, including the kitchen, dining area, and customer service counters, adheres to rigorous cleanliness standards.

Aurora University, Aurora, IL   August 2023-Present

Peer Advisor

- Offered valuable insights, guidance, and support to a group of incoming freshmen, helping them acclimate to the academic, social, and cultural aspects of university life.
